

Care & Cleaning Instructions

LVC

The escutcheon pointer & wall flange should never be cleaned with abrasive cleaners or polish. Wipe surfaces with a damp cloth and dry with a soft towel.

Cleaning Instructions:

1. Remove flange screw and flange.
2. Turn off hot and cold water supplies.
3. Unscrew cover screws and remove complete interior assembly.
4. Submerge in non-corrosive cleaning solution and flush with clean water.
5. Re-install interior into base, with cover gasket and cover screws.
6. Re-install flange screw and flange.
